Japanese : Beginner

ABOUT ME

I'm a third-year Computer Engineering student who's passionate about UX/UI Design and Front-End Development. I love creating websites that are beautiful, easy to use, and meaningful for users. My goal is to keep growing as a designer and developer, and to create digital experiences that truly make a difference.

PROJECTS

Responsive E-Commerce Website Design

HTML, CSS, JavaScript

- Designed and developed a responsive e-commerce website with a focus on usability and visual design.
- Practiced core front-end skills including layout structure, responsiveness, and user interaction.

Figma UI Design Practice

- Created multiple web and mobile interface layouts and interactive prototypes using Figma.
- Focused on visual balance, spacing, and component consistency to improve design clarity.

Modern Portfolio Website

Next.js, Tailwind CSS

- Built a personal portfolio website to showcase design and development projects.
- Applied modern frameworks and responsive UI principles for a clean and accessible design.

CERTIFICATIONS

Responsive Web Design Developer Certification

- Approx. 300 hours of practice.
From freeCodeCamp.

Front End Development Libraries Certification

- representing approximately 300 hours of work.
From freeCodeCamp.
