Software Developer Intern

About me *

Hello, my name is Putita Chaleeprom, a Computer Engineering student with a strong interest in Software Development. I'm passionate about creating websites that are responsive, accessible, and high-performance, combining elegant design with technical precision. With an engineering background, I bring strong analytical and problem-solving skills to my projects aiming to build web applications that are not only visually appealing but also efficient and scalable. Outside of my studies,

I enjoy watching movies, listening to music, and playing games. These interests inspire my creativity and help me stay focused and motivated in my daily work.

Education

2023 – Present Bachelor's Degree	Rangsit University Faculty of Engineering(Computer Engineering) GPA : 3.38
2019 – 2022 Senior High School	Sriayudhya School (Science – Mathematics) GPA : 3.72

Contact

- ✉️ Putia.chaleeprom12@gmail.com
- 📍 Bangkok, Thailand

Technical Skills

Programming Languages:

JavaScript, HTML, CSS

Frameworks:

React, Next.js, TailwindCSS, Bootstrap

Others:

Figma, GitHub, TypeScript, Supabase, Shadcn UI

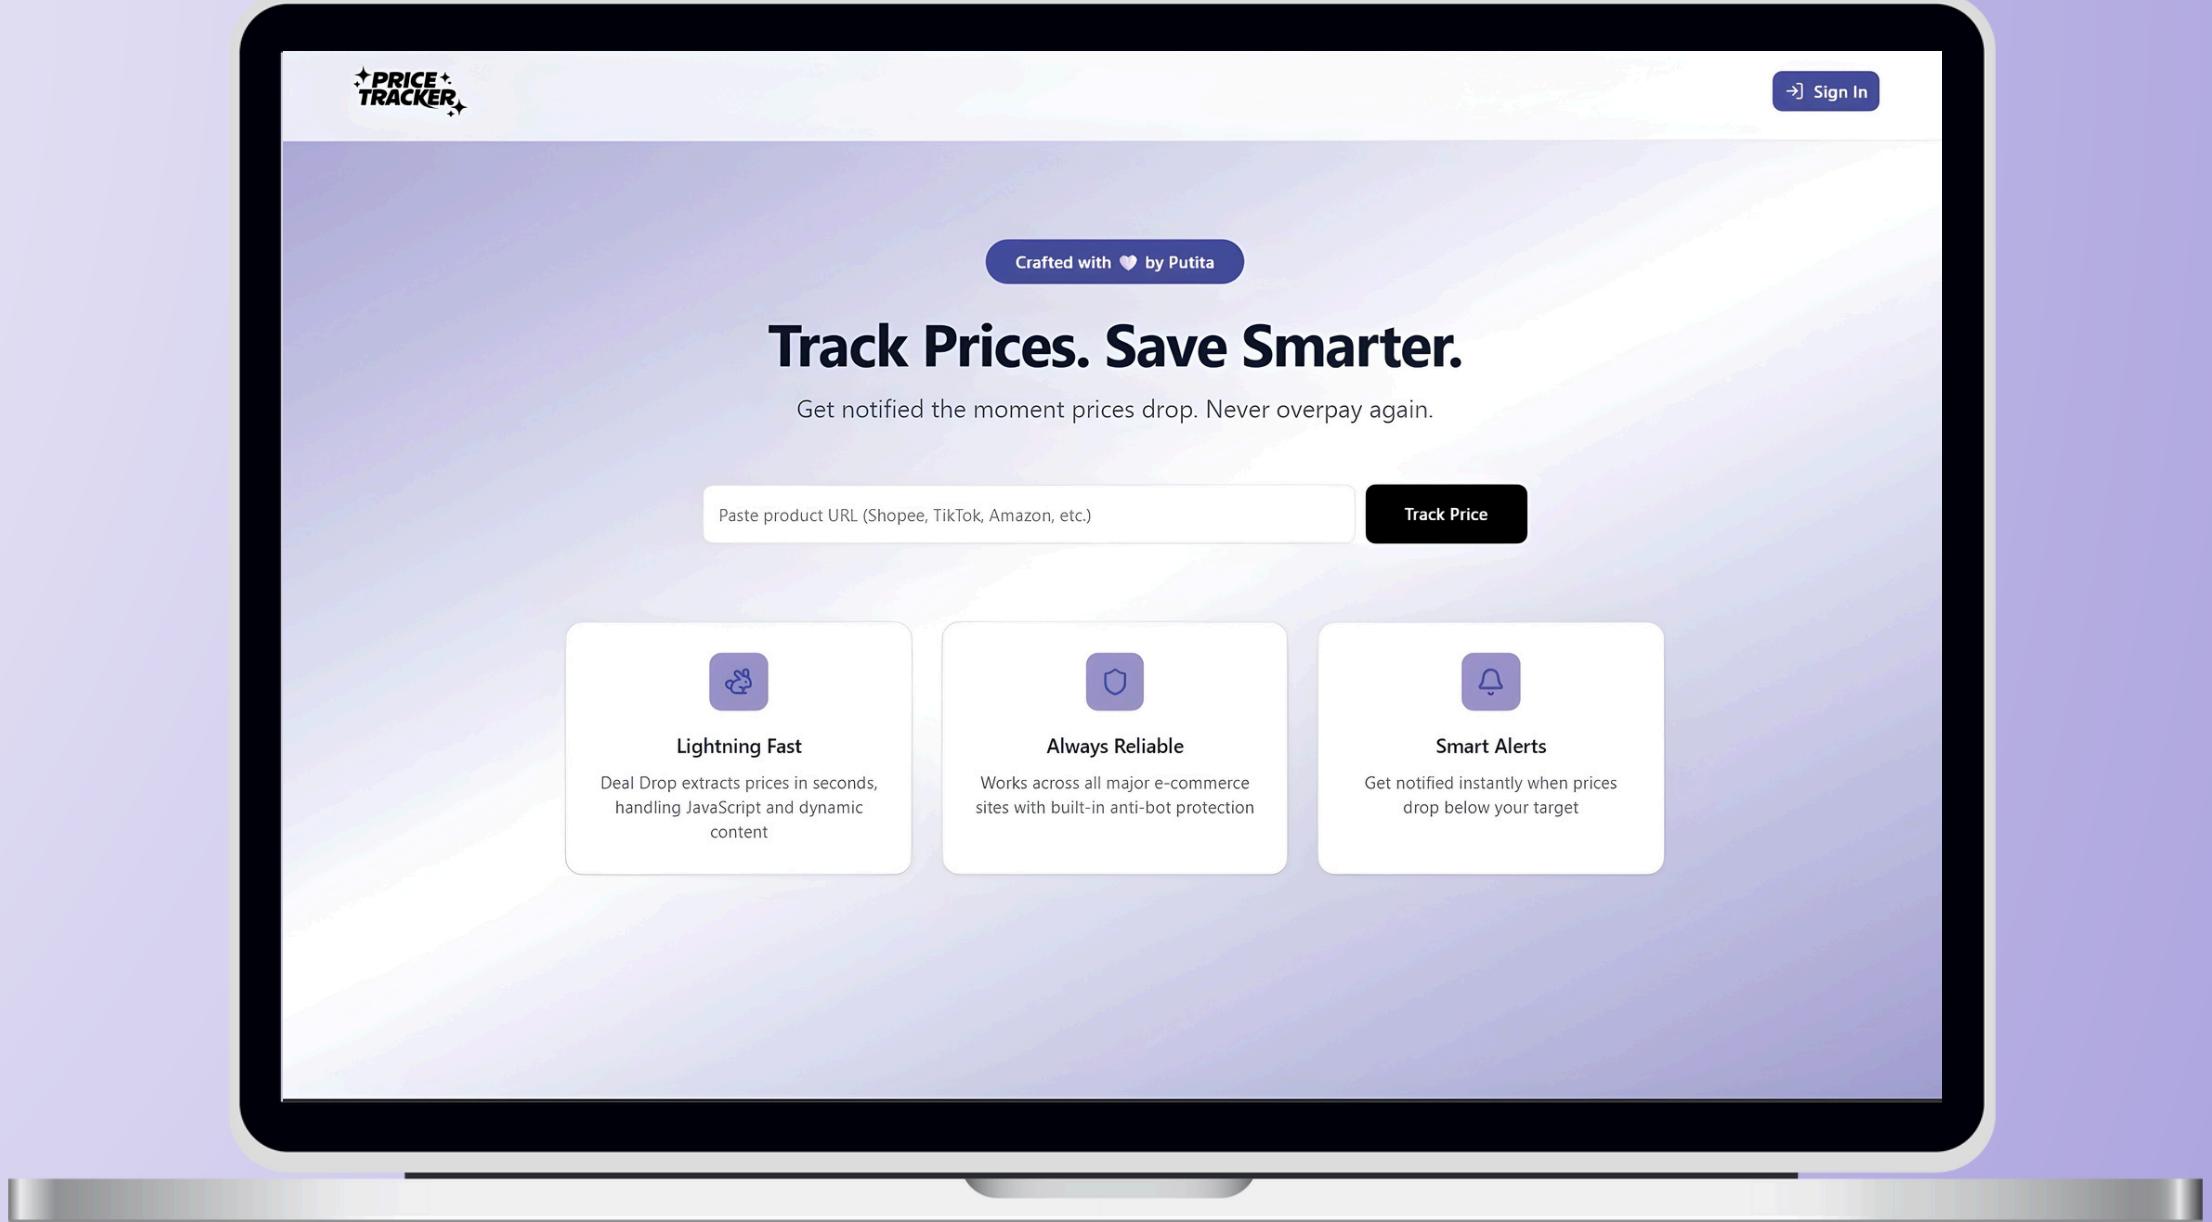

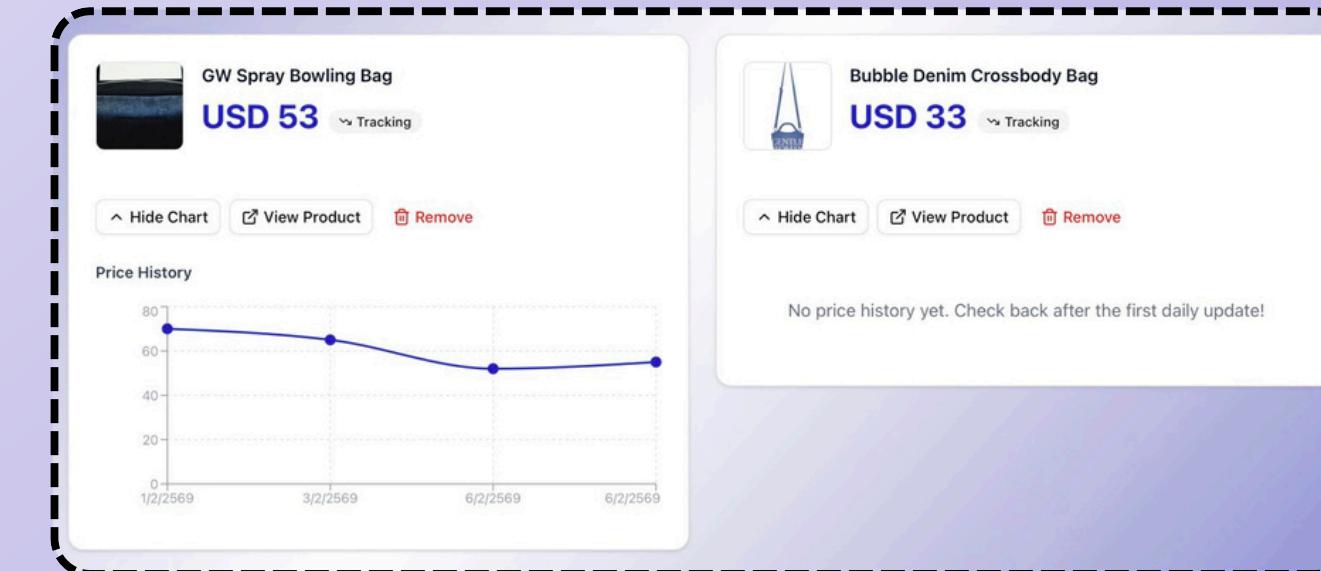

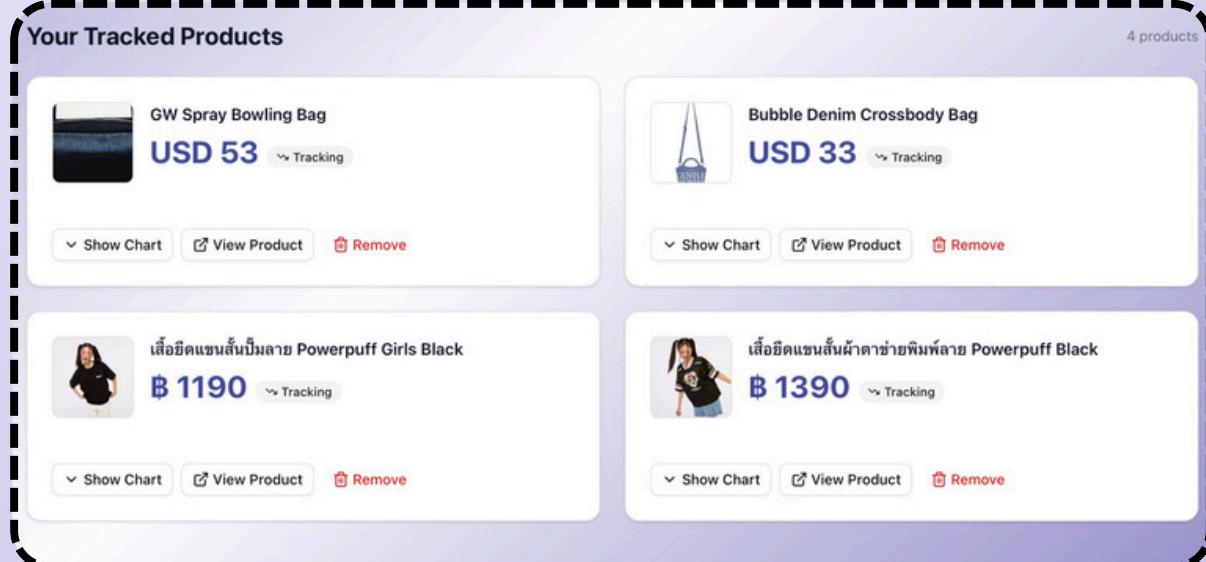

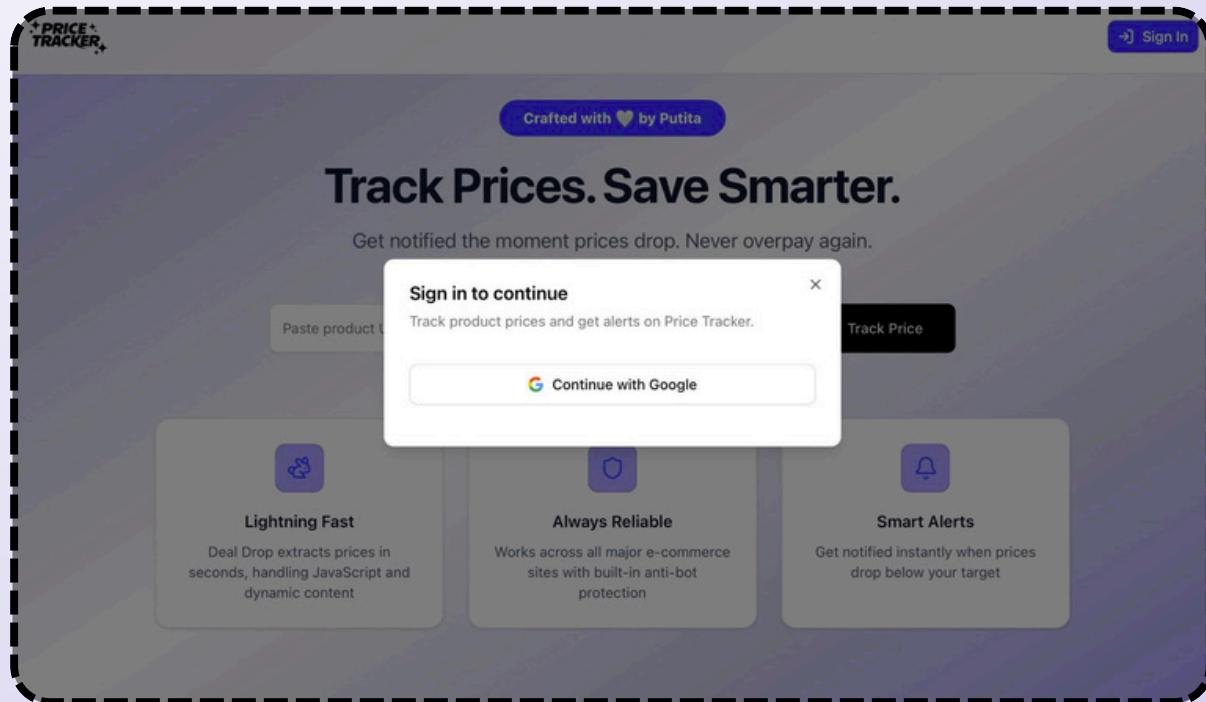

Soft Skills

- ♦ Leadership
- ♦ Responsibility
- ♦ Teamwork & Communication
- ♦ Fast Learner
- ♦ Problem Solving

PriceTracker - Smart Product Price Monitoring Platform

Built a full-stack web application using React, Next.js, and Supabase that enables users to track product prices from e-commerce websites through automated web scraping, store historical price data, and receive real-time notifications when prices change or drop below user-defined thresholds. The platform includes user authentication, a responsive user interface, and a scalable backend architecture suitable for production use.

Skills: React, Next.js, Supabase, Tailwind CSS, Shadcn UI, Web Scraping

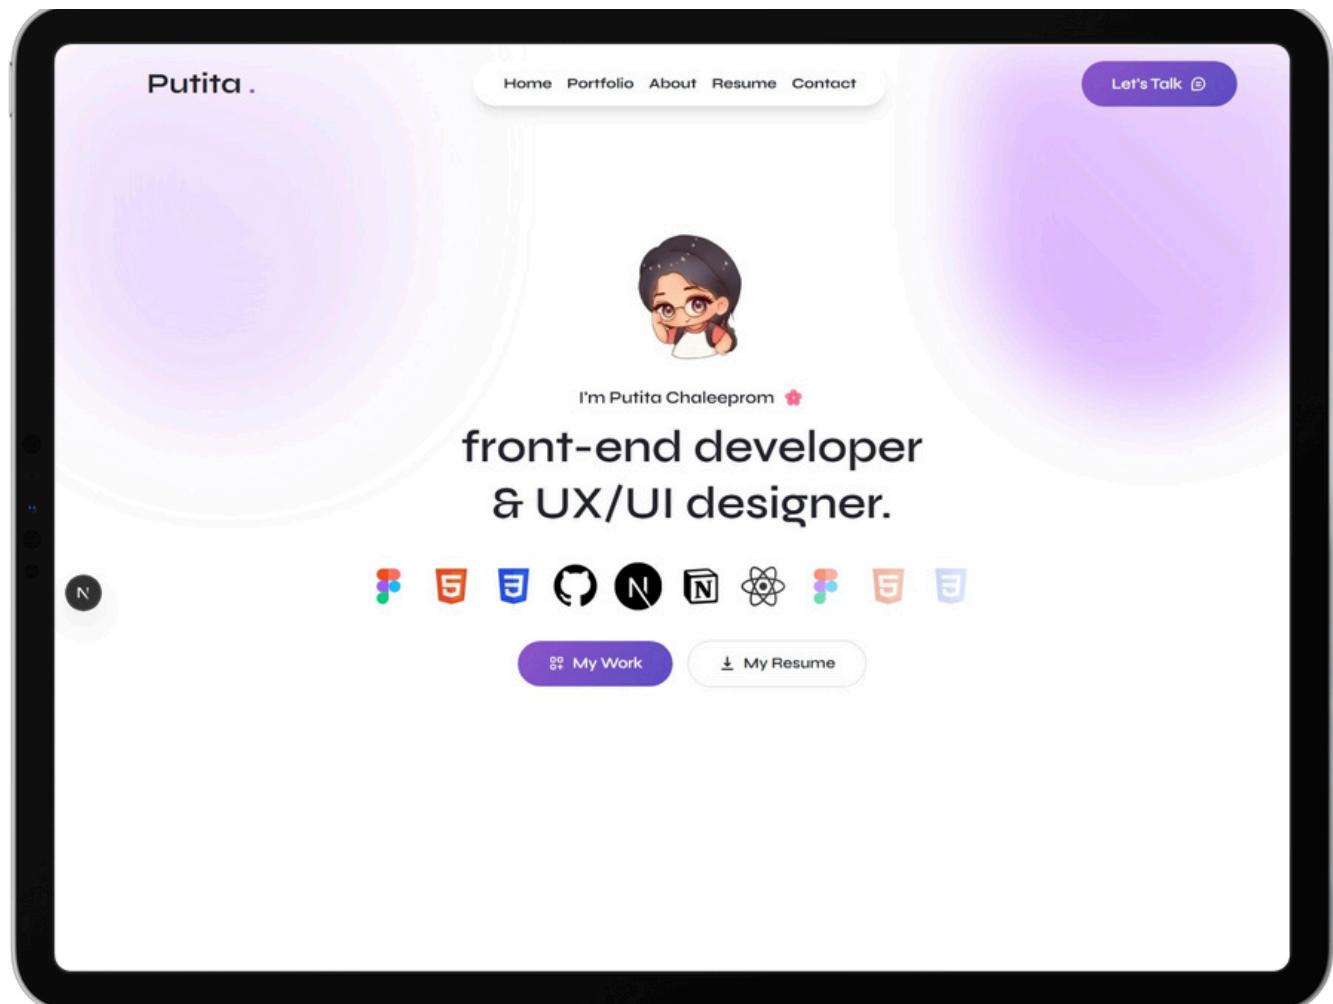

PRICE
TRACKER

Personal Portfolio Web Application

Designed and developed a responsive personal portfolio website to present front-end skills, projects, education, and certifications. Focused on clean UI design, intuitive navigation, and consistent layout to deliver a smooth and user-friendly experience across all devices.

Skills: Next.js, Tailwind CSS

→ About

Turning creative ideas into interactive web experiences.

"I am a third-year Computer Engineering student passionate about UX/UI Design and Front-End Development. I enjoy creating websites that are both visually appealing and easy to use. I am currently learning and practicing technologies such as HTML, CSS, JavaScript, React, Next.js, and TailwindCSS. My goal is to enhance my skills to build smooth and engaging user experiences, and to grow into a Full-Stack Developer in the future. I am eager to contribute creativity, technical skills, and a user-centered perspective to help develop projects that meet business goals and improve user satisfaction."

I'm also committed to learning from real-world experiences, collaborating effectively with teams, and delivering work with dedication and a positive mindset.

Education and Certifications

My Education

2023 - Present
Faculty of Engineering
Rangsit University
Studying computer engineering, focusing on programming, software design, and UX/UI design for user-centered web development

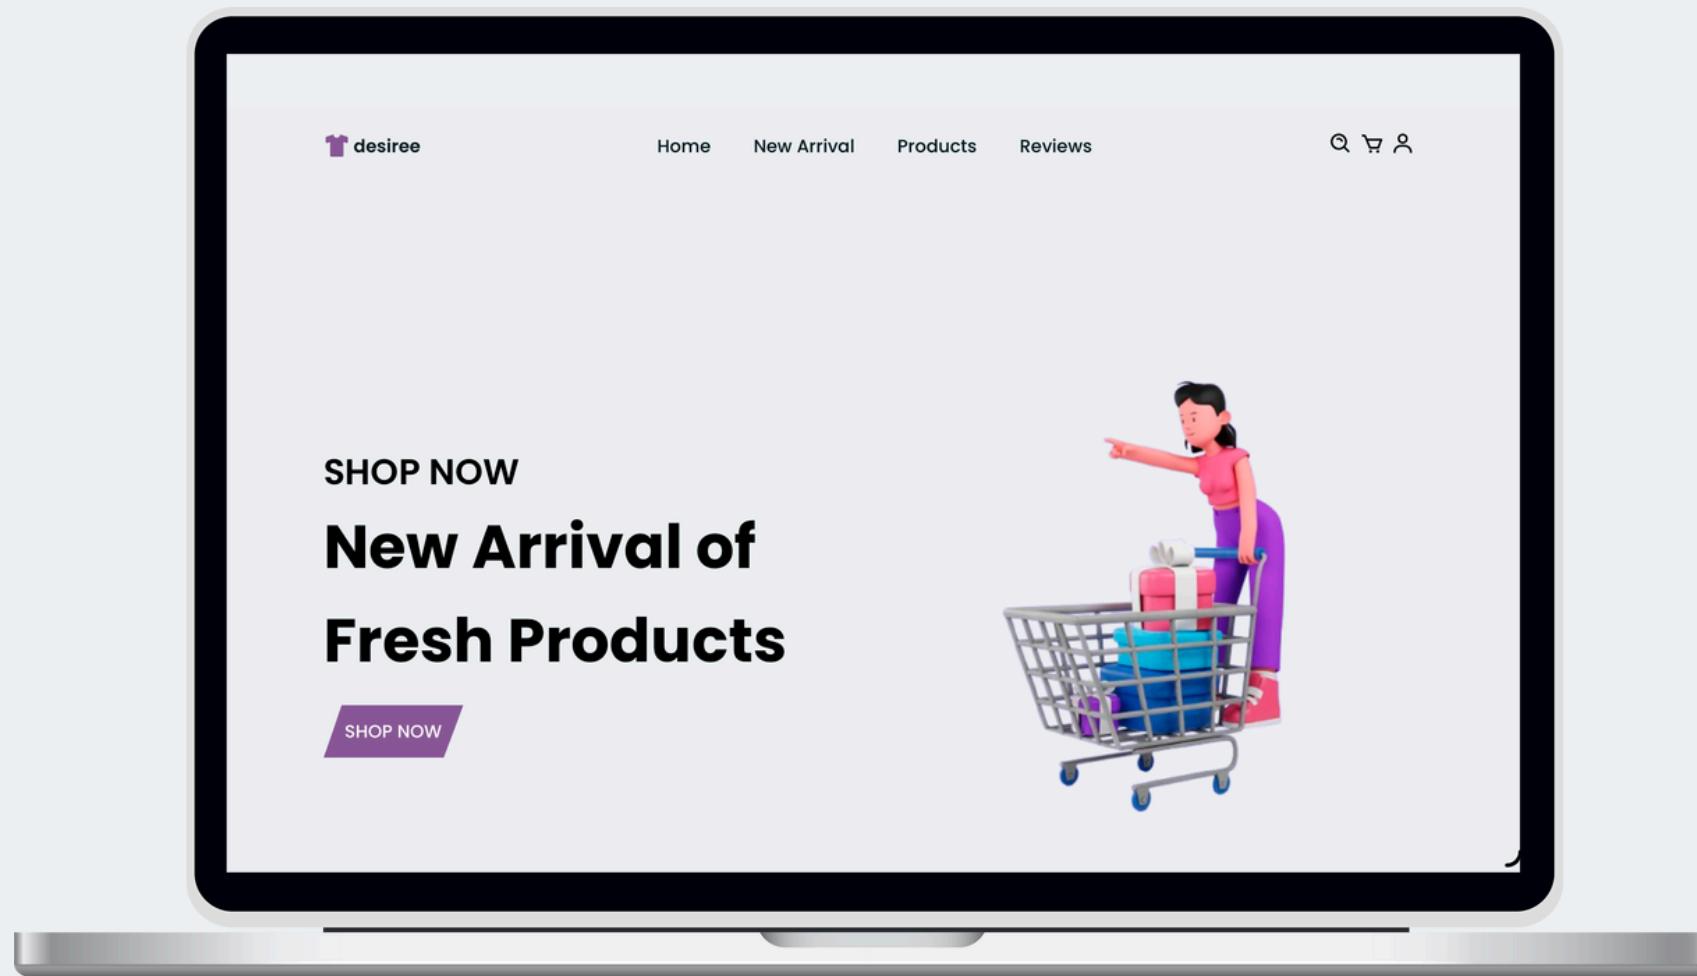

2019 - 2022
Science - Mathematics Program
Sriayudha School
Studied science and mathematics with a focus on analytical thinking.

2016 - 2019
Japanese Language Program
Sriayudha School
Studied Japanese language, culture, and communication skills.

My Certifications

2025
Responsive Web Design Developer Certification
freeCodeCamp.org
Learned to build responsive, accessible, and visually appealing web layouts using HTML and CSS.

2025
Front End Development Libraries Certification
freeCodeCamp.org
Practiced building interactive web interfaces using frameworks.

Responsive E-Commerce Website Design

Designed and developed a responsive e-commerce website using HTML, CSS, and JavaScript, with a strong focus on usability, clean and consistent UI design, and smooth user interaction. The project includes structured product listing pages, basic authentication interfaces, and a shopping cart layout, while applying responsive design techniques to ensure an optimal user experience across desktop, tablet, and mobile devices.

Skills: HTML, CSS, JavaScript

9 Popular Types of Healthy Berries

Berries are well known as healthy fruits with beautiful colors. They usually have a sweet-and-sour taste and a pleasant aroma. Berries come in many types, most of them small and round in shape. They are rich in antioxidants, which help slow down aging, nourish the eyes, improve skin health, and support the immune system. Berries are also low in calories, help prevent colds, cancer, and many other diseases.

Many people may wonder how many types of berries there are, what they taste like, and what benefits they offer. Below are nine popular types of berries that are widely consumed for their health benefits.

Blog Website

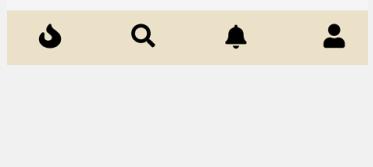

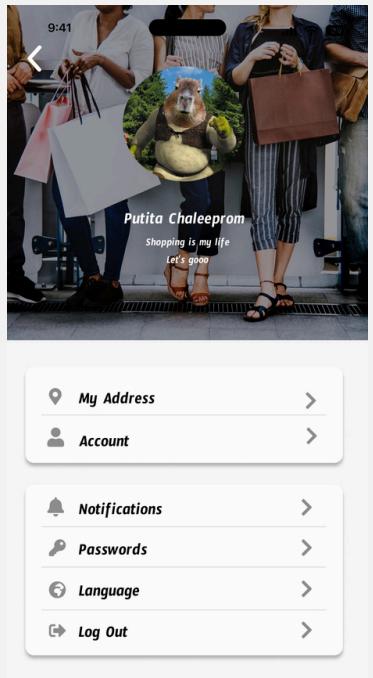

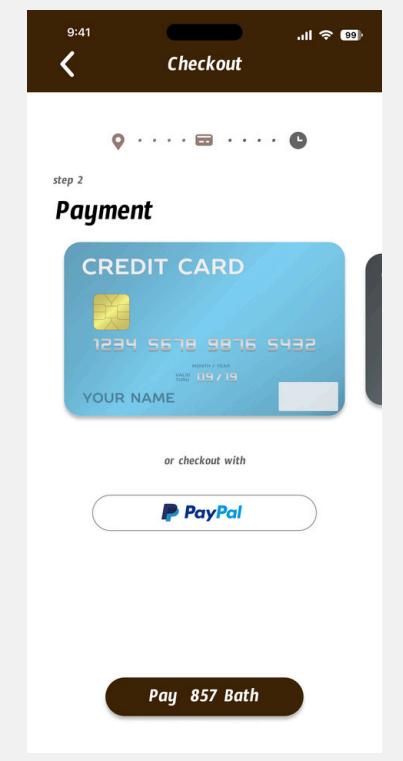

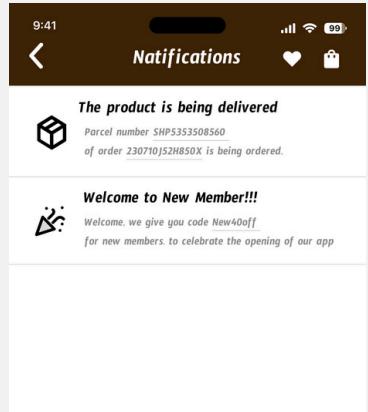

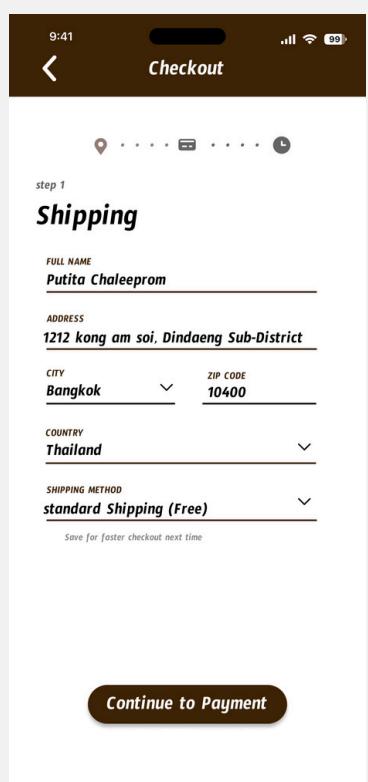

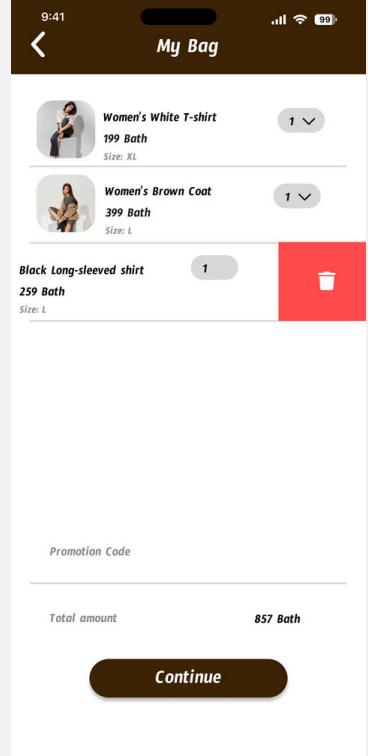

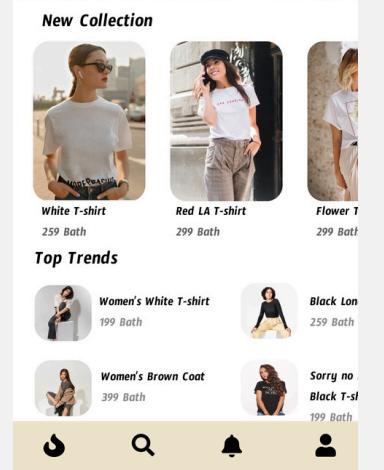

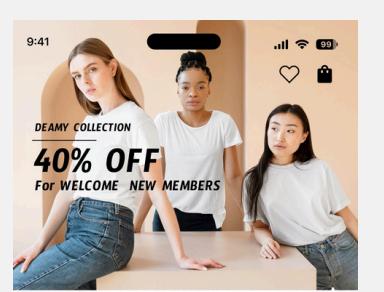

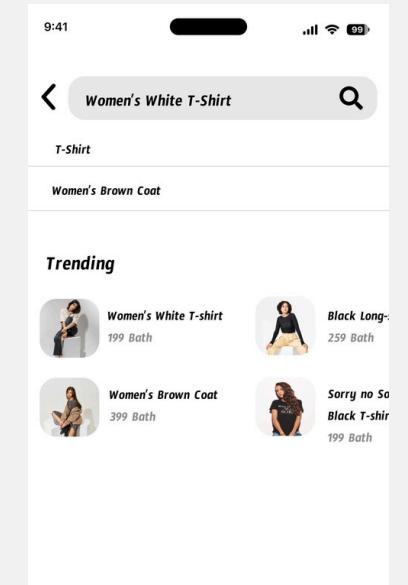

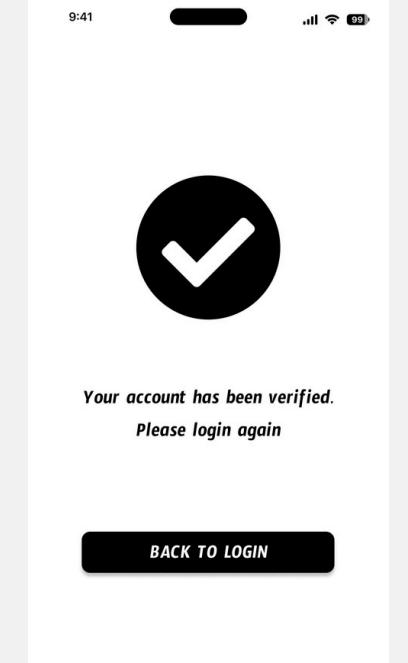

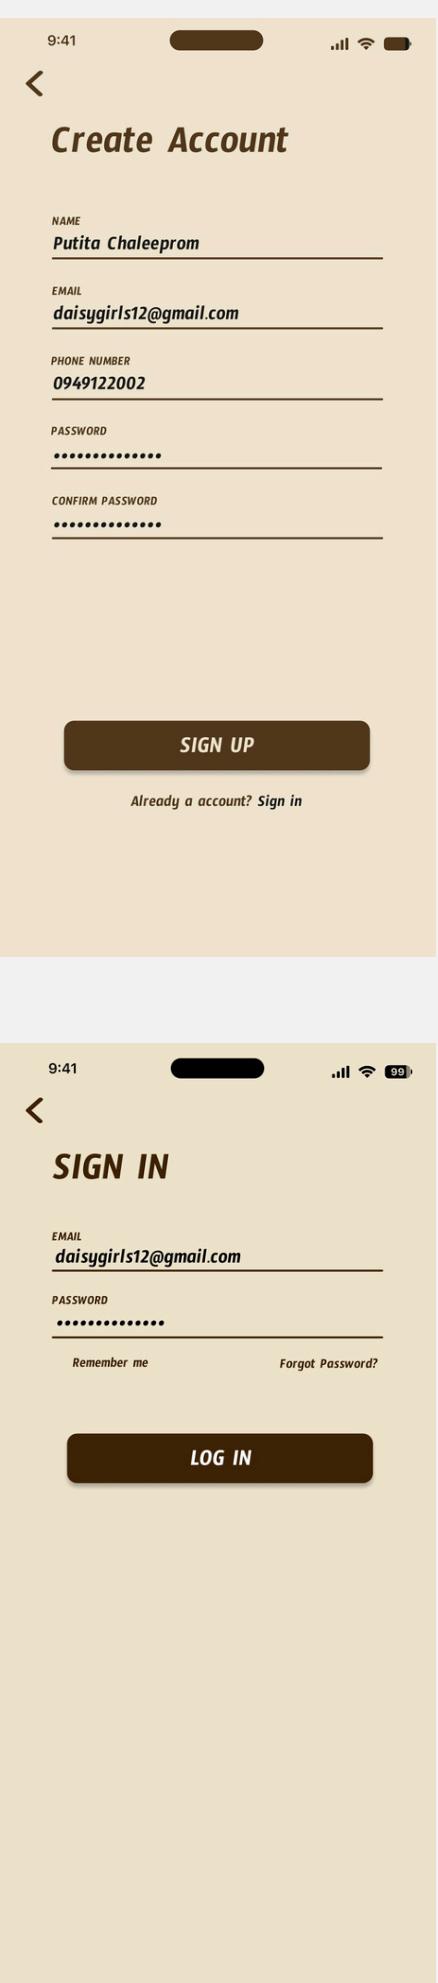

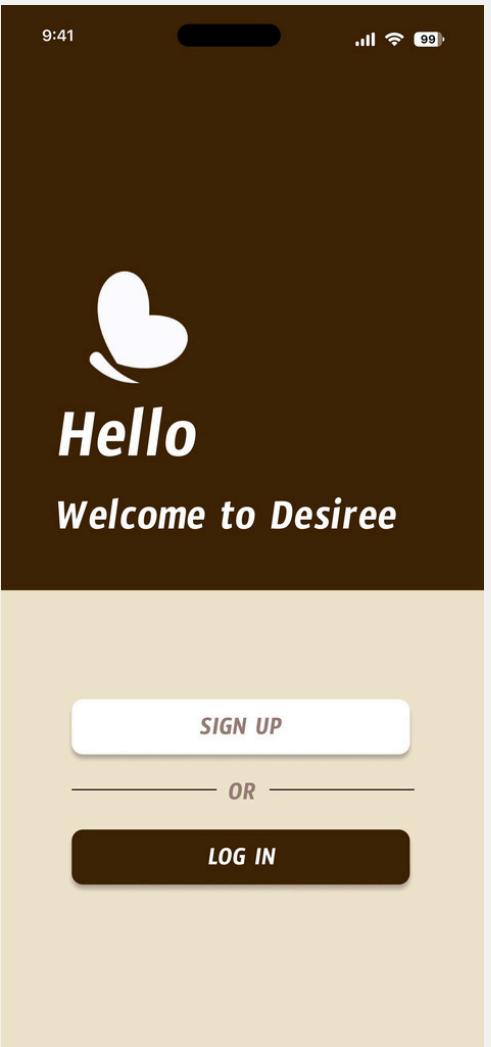

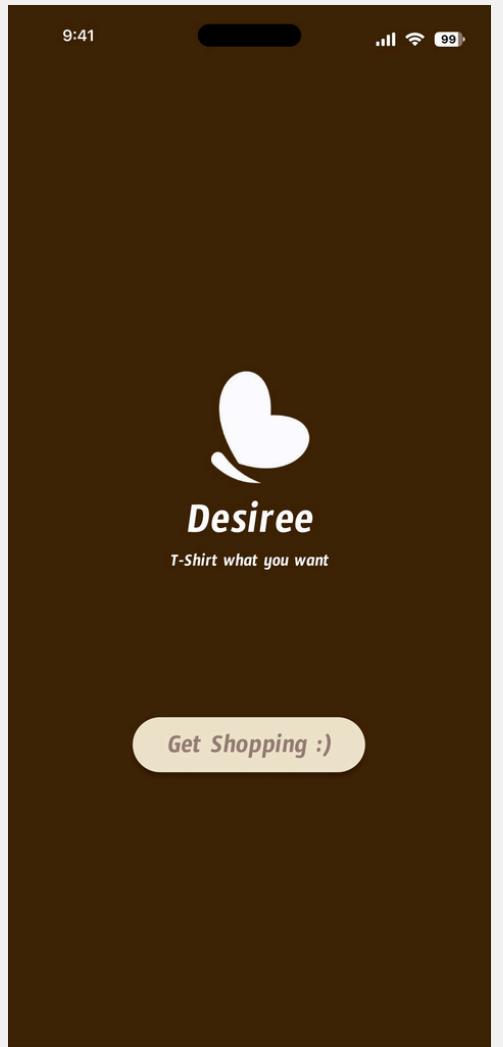

This project was developed to create a blog website that allows users to post and display various articles, along with an admin panel for managing blog content. The objective of this project is to develop full-stack web development skills, including frontend design, backend server-side data management, and database integration.

Skills : **HTML , CSS , Java Script , SQLite3**

Clothes store ui design app

Designed a clothing store mobile app UI using Figma, focusing on a clean layout, intuitive user flow, and consistent visual design across key screens such as login, product listing, cart, and checkout.

Skills: Figma

Congrats!

Thank you for purchasing.
Your order will be shipped in 2-3 working days

Certifications

Responsive Web Design
Designed responsive websites using HTML and CSS.

Front End Development Libraries
Built interactive user interfaces using modern front-end libraries.

THANK YOU.
